IT FAILED TO WORK!

A MISSOURI PACIFIC ROBBERY FRUSTRATED.

WARRENSBURG'S TOUGHS.

Four of Them Put Up the Job, But One Weakens and Makes a Confession.

Four Warrensburg toughs had a scheme fixed up to hold up and rob Missouri Pacific east-bound passenger train No. 4 at Bear creek, two miles east of Warrensburg, Sunday night, but the attempt failed because one of the parties weakened and made a confession. The Warrensburg Star of last evening had the following in regard to the matter:

The robbery was to take place at the crossing just this side of Bear creek bridge, but the plan was spoiled by the confession of James Harris, of this city. The other three parties had entrusted him to do the most important piece of the work—to climb over the engine and compel the engineer and fireman to stop the train.

The plan was fixed up about three weeks ago. About ten days ago Harris went to Chas. Morrison, told him of the plans of the robbers, and stated that he would carry out his part in order to help capture the other robbers. Morrison at once went to work on the case, and Detective Frank Barnett, of Sedalia, was sent here by the Missouri Pacific as their special agent to help capture the robbers.

Everything was got in readiness by Barnett and Morrison yesterday afternoon. Several were sworn in to surround and capture the robbers when they should attack the express car. The train arrived here on time. It was then that Barnett made a bad blunder.

Harris was to mount the engine and to stop the train at the given point, but this Barnett would not allow him to do, nor would he allow him to get on the train at all, telling him if he did he would shoot him.

Harris alone knew exactly where to make the stop, and when he was not allowed to go on and perform his duty the plans were knocked out.

The train pulled out, however, with Chas. Kuntz and Chas. Morrison in the baggage car. Harris had told the men that there was to be a horse tied close to the crossing, which, when the money had been secured, he was to mount and bring back to the city. The train, instead of stopping at the crossing, stopped about three quarters of a mile to the east of it. This spoiled what might have been a fine raid of train robbers. The horse and rider were seen by Chas. Morrison standing at the crossing.

This is the statement as Harris gives it and he says he wants it understood that he will not give away the other parties who attempted the robbery. He further states that they made an attempt to break into the Howard hardware store on Saturday night to get tools, but could not make it. The parties all live in Warrensburg and the officers are in hot pursuit of them.

What the motive of Barnett was in not allowing Harris to go along is hard to find out, and the people here are very indignant at him for his course of action. Some seem to think he was afraid to make the capture.

Such tame officers are a poor thing to have in a case of this kind. Chas. Morrison feels very sore to-day over the escape of the men whom he had laid plans to capture the past two weeks.

Frank Barnett was in the city to-day and when interviewed on the subject refused to talk, but said he didn't think there was anything in it, and that he did order Harris off the engine.

Chas. Morrison says that everything was fixed up and ready, and had it not been for Barnett they would have had the men behind the bars to-day. He says he saw one of them after he got off the train on a horse and called on him to halt, which he refused to do, galloping away at break-neck speed. Morris-

son says he fired about six shots after him.

DETECTIVE BARNETT'S STATEMENT. Detective Barnett was seen by a DEMOCRAT reporter this morning and was asked to peruse the Star's article and then present his side of the case, which he did:

"The fact of the matter is," said the officer, "I never gave the matter any serious consideration. I was informed on Saturday that there was to be an attempt made Sunday night to hold up train No. 4, so I visited Warrensburg and investigated the matter.

"It did not take me long to discover that the job was put up by a quartette of nerveless dime novel readers, and at the same time I learned that certain officers in Warrensburg were preparing to pose as heroes when in fact they were not entitled to any credit whatever.

"I went up to Kansas City Sunday afternoon and came back on train No. 4 that night. When we got to Warrensburg I recognized Harris, who had previously been pointed out to me, so I stepped up to him and informed him that if he attempted to board the train when it pulled out I would shoot him dead off.

"This was all that was necessary and the fellow sneaked off like a whipped cur. I did what I thought was for the best interests of all concerned. Had the plans arranged been carried out there would have been columns after columns in the newspapers about 'another robbery on the Missouri Pacific,' the passengers would have been badly frightened and possibly some one would have been killed.

"I am perfectly satisfied with the termination of the affair, and if the Warrensburg people want to criticize me they are at perfect liberty to do so."

NO ONE TO BLAME.

Verdict of the Coroner's Jury as to the Death of James Stapleford.

Coroner Muehl this forenoon held an inquest at Farnham's undertaking rooms on the body of James Stapleford, the young man who was killed at the Sedalia planing mill yesterday afternoon. The following gentlemen comprised the jury: E. E. Johnston, Wm. B. Taylor, Robert Hatton, N. Adams, J. D. Card and W. S. Hamilton.

After hearing all the evidence, a verdict of accidental death was returned, and no censure attaches to anyone.

The funeral took place this afternoon from the residence of the mother of the deceased, on east Fourteenth; and the Sedalia Rifles, of which organization Mr. Stapleford was an honored member, attended in a body.

A "Bum" Given a Stay.

S. C. Bauman, of Kansas City, was fined \$10 in the police court this morning for keeping late hours and given a stay of execution to leave town. He claimed he boarded the blind baggage, supposing that he was on a Chicago and Alton train that would carry him to Lydia avenue. Realizing his mistake when it was too late, he went to sleep on the car platform, and when he awoke he was in Sedalia. His story is rather gauzy, and Chief Delong thinks the rock pile is the place for him.

Convicted of Theft.

A. R. Woolery pleaded guilty in Justice Levens' court this morning to the theft of a pair of shoes from Peter Arben and was fined \$5 and costs. In default of payment he went to jail.

ARE THEY DROWNED?

Two Young Children Missing Down on Flat Creek.

An old colored woman came to the city this morning and reported that it was more than probable that two children of a farmer named Martin, living four miles south of the city, on Flat creek, were drowned yesterday.

The Martin family live not far from the Abell place, and yesterday morning the two children started out to play, but up to this morning, when the colored woman left home, they had not returned.

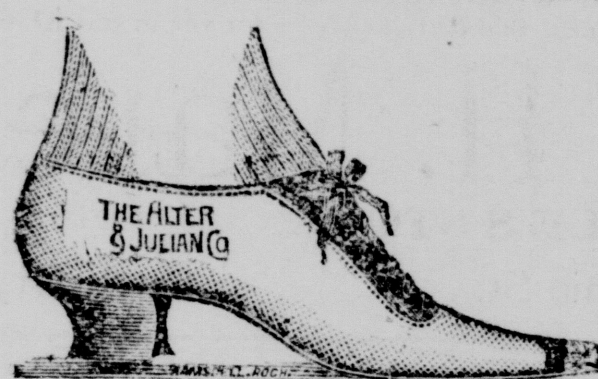

Mr. and Mrs. Martin are fearful that the little ones met a watery grave in Flat creek, and the stream was being searched this forenoon with a view to recovering the bodies.

A STAFF REUNION.

Official Paper of the City of Sedalia.

RAILROAD earnings still show a net increase on last year's business.

HAWAIIANS say that they are bound to be annexed to some government. If they are not able to govern themselves this country don't want them.

THERE are a great many people who do not understand why this country should seek to discourage silver mining while at the same time collecting a tariff levied to protect iron mining.

THE Leavenworth miners who struck out of sympathy for the southeastern Kansas strikers are going to work, like sensible men. They can show most substantial sympathy by sending the strikers a part of their wages.

THE awful calamity at the World's fair grounds did not come upon the country unexpectedly. Many of these imposing temporary buildings are mere fire traps and it was fortunate that the flames did not break out in some building crowded with visitors to the exposition.

AN exchange remarks that Australia is bigger in population than this country was when it set up for itself. Bigger in population, but no nation on earth is bigger in manhood, courage and self-reliance than the colonies were when they declared their independence.

SENTIMENTALISTS may theorize as they will, and may embalm in tears the loathsome fiend who has murdered and outraged female innocence, but is the hearts of men whose blood in not water there is written a law that such fiends must die like the veriest rabid dog or venomous serpent.

THE taxpayers of the city and county are burdened with heavy criminal costs, and they will approve of any plan that will tend to make a jail sentence really a punishment. If prisoners could be made to earn their board the courts could impose long sentences upon hardened criminals who would be forced to work inside the prison walls—something they rarely do outside.

THE Kansas City Times puts startling headlines over the story of a poor miner drawing \$12 a month pension and earning \$700 a year digging coal. But just think of Gen. Black drawing a hundred-dollar-a-month pension and earning \$5,000 a year as congressman, or Gov. Crittenden drawing an \$8 per month pension and earning \$10,000 per year as consul to Mexico. The Times should spear the big fish instead of the minnows.

THE DEMOCRAT sincerely hopes the Missouri Pacific managers will reconsider their action in abolishing the position of night depotmaster. It is not a sinecure by any means, but a good man is needed to look after the accommodation and safety of the passengers. This is the judgment of the public and a petition to that effect would be numerously signed in Sedalia and by the traveling public. Give us back our night depotmaster by all means.

THE Sedalia schools are among the best in the state, and the people are anxious that they be made better year by year. Prof. Smith has done a splendid work and won the confidence of the public as well as of the board of education. Now, that he is to leave us, too much care cannot be taken in selecting his

successor. The schools must go forward, and in order that they do so the superintendent must be an active, progressive man. Of course there will be a host of applicants for so important a position, and the board should insist upon having the very best talent attainable.

THE Nevada papers are complaining of the depredations of tramps in that city. These worthless scoundrels watch until they are sure there are no men around a house and then go and demand food and scare the ladies of the house. Here in Sedalia there is little complaint as our police force make it so warm for the lawless gentry that they find it convenient to "move on." Nevada would do well to adopt the same plan. And then that rogue's gallery is a good thing—the more desperate among these criminals are generally wanted elsewhere and they do not want their photos in the hands of officers.

THE sentimentalist may whine and may weep oceans of tears, but in spite of it all there will be mob law as long as there are fiends in human form who commit crimes that would make devils blush. As long as innocent women and girls are outraged and murdered, there will be brothers, neighbors and friends to seize upon the guilty fiends and wreak vengeance upon their worthless carcasses. Such scenes as were witnessed in Kentucky the other day and in Illinois a few days ago will be repeated as long as the crimes which caused them are perpetrated and as long as there are men who love and respect the female members of their families sufficiently to be driven wild with anguish at wrongs done to them. When men become so extremely civilized and so utterly intellectual that they can gaze upon the poor bleeding, murdered, outraged body of a wife, daughter or sister without emotion or a thirst for vengeance, then, and not till then, will moral suasion or imprisonment in the penitentiary be depended upon as the sole penalty for such crimes.

THINKS IT DEAD.

The readers of the DEMOCRAT will remember that just after the organization of the Springfield, Sedalia, Marshall and Northern railroad company to build a road from Springfield to Miami, the people north of the river took up the work, organized and subscribed money to build a road from that point north to the Iowa line.

Time and again it was reported that the "money was ready" and our northern neighbors were whooping us up for fear that when their line reached the Big Muddy they would find no southern connection. Lately, however, the enterprise has lagged, and the Brookfield Argus, which was one of the strongest advocates of the road, says of it:

"The Argus has at all times and upon all occasions devoted its columns to Brookfield's interest, as every Brookfielder knows. It has printed column after column with a view to secure the new north and south road, but we never did believe in following a cold trail.

We do not believe that the proposed north and south road will ever be built, and we further believe it to the interest of Brookfield to throw up the sponge and call in the bonds.

To speak plainly, it looks very much as though there was some bad faith in regard to the new alleged railroad. Only the other day notices were sent out to our citizens, saying that another assessment was due to meet the current expenses, etc., and that payment on so many shares was expected. Most every business man in Brookfield received one of these notices.

And only last spring at a railroad meeting in the Commercial Club rooms, when it came to voting, it was discovered that some of the active leaders in the project, officers of the directory, had signed away or transferred their stock to irresponsible parties. Now as it is generally known that the latter gentlemen were in no condition to buy so many shares of railroad stock, the question arises, why did the officers give or sign away a large portion of their stock.

Solution is imperative. To keep from being assessed, of course; to keep from being compelled to send themselves just such notices as they as officers of the organization are sending out to other stock holders who acted in good faith and did not put their stock out of their hands.

However, we cannot blame these men for protecting themselves, and no doubt others will wish they had done the same thing.

But enough of that; the thing for Brookfielders to do is to stop talking about the new railroad. There is nothing in it. "But Engineer Armstrong says there is," you say. Then if Mr. Armstrong has so much faith in the new road being built through Brookfield, who don't he build a new residence here instead of at Springfield, as he is doing."

WHO IS TO BLAME?

WHY STREET PAVING HAS BEEN DELAYED.

A Little Information in Regard to the Situation on West Fifth Street.

"It is a surprise to me that the citizens of Sedalia make any attempt whatever at street paving, after their experience in the past few years," remarked a business man this morning.

"The rule in Sedalia has been to tear up the streets early in the spring and leave them torn up until late in the fall before anything in the way of paving was done.

"It is going to be the same old thing over on West Fifth street, too, I see. The contract was let several weeks ago and the work ought to be completed by this time, but instead of that, even the curbing is not all in yet, and nothing in the direction of paving has been done except a little plowing along the thoroughfare, so that it is now thoroughly impassable every time that it rains.

"No, sir, I tell you it is enough to disgust a property owner with street improvements as they are carried on in Sedalia, and the only wonder is that there are not remonstrators on every corner of every block in the city."

The DEMOCRAT realizes that there is a good deal of truth in the remarks of the gentleman quoted above, but investigation will show that in the matter of West Fifth street, at least, the paving contractor is not the one at fault. It is claimed that owing to mistakes on the part of the engineering department the contractor cannot proceed with the work according to the specifications without invalidating the tax bills, and the contractor has simply been waiting for the errors to be rectified before he proceeded with the paving. At last night's meeting of the council a new survey was ordered, and it is certainly to be hoped that the work of paving will be commenced before many more days have rolled around.

"Royal Ruby" Port Wine.

If you are reduced in vitality or strength by illness or any other cause, we recommend the use of this Old Port Wine, the very blood of the grape. A grand tonic for nursing mothers, and those reduced by wasting disease. It creates strength; improves the appetite, nature's own remedy, much preferable to drugs; guaranteed absolutely pure and over five years of age. Young wine ordinarily sold is not fit for use. Insist on having this standard brand, it costs no more. \$1 in quart bottles, pints 60 cts. Royal Wine Co. For sale by A. S. McGowan.

He's Going to Build.

Frank Gibbons, the popular young operator in the employ of the Western Union, has made arrangements to erect a beautiful five-room cottage at Stewart and Cooper streets, and will begin work within the next three weeks. He has a most desirable corner lot, and the residence will contain a bath room, closets etc., the whole costing about \$1,700. The plans were drawn by W. S. Epperson, and it is needless to say that the structure will be modern in all of its appointments. Can it be that Frank contemplates matrimony?

Attention, You That Suffer

From any disease that your doctor cannot cure, such as chronic rheumatism, catarrh, kidney and liver troubles, and especially paralysis. This is a disease that doctors cannot cure, but if you will wear Prof. W. C. Wilson's Magneto Conservative Garments and use the Activa you will get well and live. If not, you must and will die. For particulars see or address Prof. A. J. Maury. Office, 107 East Sixth street, Sedalia. Lady in attendance at all hours.

Injured by a Fall.

Tommy, the bright little 4-year-old son of Mr. and Mrs. Ed Feeley, met with quite a painful accident last night. He was hanging from the limb of a peach tree, child like, and let himself drop to the ground, but in doing so the fleshy part of his arm caught on a rusty nail and an ugly wound was inflicted. Dr. Ferguson dressed the limb and the little fellow is playing around as usual to-day.

Balloon Ascension After Night.

The DEMOCRAT is informed that the famous Mme. Madeline Squires will make a balloon ascension and parachute leap Friday night at 8 o'clock at Forest Park. This will be the first attempt of the kind ever made by a woman.

HAVE WE A TRUST?

COUNCILMAN HANSBERGER SO CHARGES.

The Matter Will Be Investigated—The Work of the City Fathers Last Night.

At an adjourned meeting of the council, last night, a remonstrance against the paving of the alley in block 13 was read and referred to the city engineer.

Petitions were presented for a sidewalk on Johnson street, from Monticau to Missouri, and asking that Main street, in the event that it is macadamized, be made only fifty feet in width. The former petition was granted and the latter laid over.

The street commissioner was instructed to put in a water box at Sixteenth street and Ingram avenue, and also to investigate a reported broken water pipe at Fourth street and New York avenue.

A crossing was ordered put in at Sixteenth street and Missouri avenue, and the sidewalk at Seventh and Center streets was ordered repaired.

The alley bounded by Second and Third and Washington and Lafayette streets was ordered put in good condition; and the street and alley committee was instructed to investigate the paving of the alley west of Ohio street, between Second and Third streets.

The committee on public buildings was authorized to employ a building inspector, and the water works committee was instructed to investigate the water plugs on Fifth street.

In the matter of constructing a sewer from the Missouri Pacific shops, bids were ordered advertised for.

Further time was granted the committee appointed to select a suitable place for a wagon yard for the city, and also to the committee named to select a dumping ground.

The office of clerk to the city marshal was abolished. A number of bills were read and the June reports of the marshal and the police judge were also read.

Mr. Hansberger got after the in-

surance companies with a sharp stick in the shape of a resolution, which set forth that the local agents had entered into a combine in the matter of rates and an investigation was demanded. The matter went over a week, and in the meantime the "trust" charge will be looked into by the county attorney.

E. G. Church made a statement regarding the delay in the matter of paving West Fifth street, all of which he alleged to be due to errors on the part of the engineering department in making its surveys. Engineer Zoll was present and made a statement, maintaining that no mistake had been made; and as the easiest way out of the difficulty a second survey was ordered.

On motion of Mr. Hansberger, the council went into executive session.

Dr. Major don't have to advertise for dental work. His work does the advertising. But if you want teeth extracted absolutely without pain, call on Dr. Major, 310 Ohio street.

\$100.00 IN CASH PREMIUMS.

Don't forget to bake a loaf of bread; in so doing you help out a noble enterprise, the Charity hospital fund. Every dime helps to swell the Charity hospital fund. If you have not a kindly feeling toward the No. 8 flour you can use any flour that you wish. However, none other than the No. 8 can compete for the prizes, and must be so stated on the day of delivery.

Every one that has a drop of the milk of human kindness coursing through their veins should not forget the hospital fund and send us a loaf of bread.

Yours very respectfully,
B. S. REMBAUGH.

THE RAILROADS.

General Freight Agent Haile, of the "Katy", passed through from the south to St. Louis last night.

The baggage room force now announce the departure of the night trains since the retirement of Night Depotmaster Grant.

L. U. Hurst, the well-known switchman, will leave for Colorado at an early day, to travel and talk insurance in the interest of the Fidelity and Casualty Co.

General Superintendent Allen, Chief Engineer Wilson, Superintendent of Bridges and Buildings Martin and Superintendent Lyons left last night for a tour of inspection over the M., K. & E., traveling in Mr. Allen's private car.

The removal of the night depotmaster causes Day Depotmaster Carnes to remain on duty until 7:30 p. m., whereas he was formerly relieved at 6:20 p. m. It is almost needless to say that Mr. Carnes thinks Sedalia is entirely too large a town to be without a night man at the depot.

Wilson, the Missouri Pacific train robber, has been assigned to work in the Straus harness shop in the penitentiary. He is now learning how to make collars and finds it quite tame in comparison to holding up a train. He appears to be a willing worker and it is not anticipated that he will cause any trouble.

Inspecting the M., K. & E.

Vice President and General Manager Purdy, of the Missouri, Kansas & Texas, left St. Louis last night for Hannibal to meet President Rouse and the officers of the company, who will to-day go over the Missouri, Kansas & Eastern line from Franklin to St. Charles and Texas junction, where connection is made with the Burlington's Missouri line. The officers will to-day determine what local train service will be required for the Missouri, Kansas & Eastern line.

In the Sweet By and By.

Just at present there is no apparent sign of the Missouri Pacific's intention of commencing work immediately on the extension of the Jefferson City, Lebanon and Southwestern railroad, says the Jefferson City Tribune, but we still live in the hope that early next spring, say about the time the first twitters of the blue bird are heard, that the dirt will begin to fly at Bagnell

for a continuance of the line on into the southwest. Jefferson City is not caring much to which point in the southwest the road may be directed. What she wants is extension.

The "Katy's" Big Business.

The M., K. & T. is doing an immense stock business and has been for some time past. "There are more cattle going north on the 'Katy' now than I have ever known to pass over the line in the same length of time in the past five years," said a well known railroad man to a Nevada Post reporter.

From 5 o'clock Saturday afternoon till 9 o'clock Monday morning twenty-eight trains of stock averaging twenty carloads passed through here going north. These cattle were all from Texas and as the loads averaged twenty-four cattle there have been transported in that length of time 13,440 head, not counting the cattle shipped on local freights, of which there have been many.

These cars bring the railroad company about \$100 each, making the neat sum of \$560 a train or \$56,000 for the 39 hours hauling.

Back From a Trip.

Traffic Manager Miller and General Passenger Agent Barker, of the Missouri, Kansas and Texas, returned to St. Louis headquarters yesterday from Texas. At San Antonio Col. Barker was mistaken for a famous revivalist, and was the recipient of numerous attentions. The "Exposition Flyer" of the Katy line is so well patronized that an extra coach has been placed in the equipment.

No "Cut" at the Shops.

Master Mechanic Weller informed the DEMOCRAT this morning that there had not been any reduction of the shop force at this point, nor has he received instructions to make any. He has about 260 men employed at present, and hopes to be able to retain them all, as he has ample work to keep them busy.

CATON'S Nerve Tonic and Vitalizer.

QUICKLY CURES General & Nervous Debility, Spinal Exhaustion, Neurasthenia, etc.

Completely, Perfectly and Permanently Relieving the Vital Energies; Increasing Nervous Force, Renewing the Ambition of Youth and Old.

COURAGE OF MANHOOD;

Restoring to Enfeebled, Enervated, Exhausted, Devitalized or Overworked Men and Women

Perfect Constitutional Powers.

Its extraordinary curative power manifests itself almost immediately it is taken. On this point the evidence of those who have taken it is uniform and positive. They say they can feel the effect of every dose doing them good. It is a powerful nerve invigorating tonic, imparting its restorative influence through the medium of the nervous system to every organ and tissue in the body. It makes but little difference whether the constitutional vigor has been undermined by acute disease, overwork, or certain mischievous indiscretions; or whether the broken down condition is called by one name or other, so long as there is nervous exhaustion, general or local weakness—so long as enervation and debility are the type of the ailment, this is the remedy.

THOSE WHO SUFFER

from the results of over-mental or physical exertion, hardship, exposure, hidden drains, capricious, or who have brought upon themselves a series of afflictions by ignorantly or wilfully violating nature's laws, will find Caton's Vitalizer and Nerve Tonic the remedy for their certain relief. It speedily removes all evidences of progressive physical debility, and restores the broken down energies to their natural vigor.

WHENEVER THERE IS any weakness of the vital organs, nervousness, prostration of the physical or mental energies, confusion of ideas, lack of self-confidence, irritability of temper, melancholy, cowardice, weakness of the knees and back, palpitation of the heart, dragging pain in the loins, headache, irritation of the kidneys and bladder, milky urine, pernicious and hidden wastes, resulting in a failure of the mental and physical powers, constituting an impediment to success and unfitting him or her for the duties and responsibilities of life, it is the remedy par excellence.

A single package will be sufficient to inaugurate the work of regeneration, and cure in many cases. But stubborn cases often require more. It will be sent, postpaid, secured from observation, for \$1.00 per package, or 6 packages for \$5.00. Address all orders to CATON MED. CO., Boston, Mass.

PROF. SMITH'S CALL.

CHOSEN PRINCIPAL OF ST. PAUL HIGH SCHOOL.

SALARY OF \$3000 A YEAR.

A Blue Ribbon Position for Sedalia's Educator in a Flourishing Northern City.

Readers of the DEMOCRAT will no doubt peruse surprise as well as interest the following article in regard to a Sedalia educator, clipped from the St. Paul News of Thursday, July 6th:

"At the meeting of school inspectors yesterday afternoon, Prof. A. J. Smith, of Sedalia, Mo., was recommended to succeed Prof. Carman as principal of the high school."

"The recommendation was made by the high school committee, which has been carefully looking into the merits of the applicants and has reached a unanimous conclusion in regard to Professor Smith."

"The report was not acted upon yesterday, but will be taken up at a special meeting to be held Monday afternoon."

"The committee received applications for the positions of teachers in Wisconsin, Michigan, Illinois, Massachusetts and several other states, and there are two local candidates—Prof. Bryant, of Humboldt school, and Prof. Weitbrecht, of the high school."

The selection of Prof. Smith is quite a compliment to that gentleman, who has a national reputation in educational circles.

He has been indorsed for the principalship by United States Commissioner Harris, Prof. Lane, of Chicago, and many others of note."

Last night Prof. Smith received a telegram announcing his election to the position; and it is needless to say that he is highly elated over his good fortune.

The salary is \$3000 a year, or \$600 a year in excess of what he receives here, and the field is, of course, a much broader and more inviting one.

In fact, the DEMOCRAT learns that the position is a highly desirable one in every particular, and it is not surprising that applications were received from prominent educators in several states. To be chosen over such a field of prominent educators is indeed complimentary to Prof. Smith, and the DEMOCRAT congratulates him on this recognition of his ability.

Under the superintendency of Prof. Smith the schools of Sedalia have prospered as they never did before, and it goes without saying that the school board, as well as patrons and pupils, will regret, on their own account, to see the gentleman locate in another field.

At the same time it is realized by all that the St. Paul position is one that any educator might be proud to have tendered him, and Prof. Smith will accept it, as a matter of course.

While every Sedalian will regret to part company with Prof. Smith, there is not one who will not extend congratulations on his being called to a wider field, and wish for him every possible success there.

Prof. Smith was seen to-day and stated that he had not yet been notified officially of his election, but he had no doubt that such was the case. On receipt of the official notification he will lay the matter before the school board, but until that time he has nothing to say in the premises.

A CLOSE CALL.

Aeronaut Squires Has a Narrow Escape From Death.

Frank Squires, the aeronaut, who gave several ascensions in Sedalia last fall, had a narrow escape from death by making an ascension at Washington Park in Kansas City Sunday night.

The night was an ideal one for a trip to the clouds, and everything was favorable. The balloon was inflated without trouble and the ropes went cut at 9 o'clock. The balloon went up with a jerk, but before it had fairly got under way down came Squires to the ground, having fallen from a height of 20 feet by the parting of a rope that supported the parachute.

He was picked up unconscious and carried into a cottage, where a

physician visited him. An examination showed that, while badly bruised and jolted, no bones were broken, and he was able to return to the city.

Squires has been very unfortunate this season, having narrowly escaped death in Texas a few months ago. Soon after the accident Sunday night the balloon collapsed, and, the gas escaping, soon returned to the earth.

A Sneak Thief's Work.

A negro sneak thief entered the residence of John Ludemann, No. 107 North Prospect street, about 9 o'clock last night, during the temporary absence of the family, and stole a necklace and three gold rings—a set one, a plain one and a band one—from a bureau drawer. The thief was seen by a 13-year-old girl, as well as by some of the neighbors, but none of them identified him. The matter was reported to the police last night. The rings were highly prized because they were once worn by Mr. Ludemann's first wife and he is very anxious to recover them.
